

How Safe is your Air Travel?

On July 17, 1996, TWA Flight 800 Became the First American Civil Aircraft Shot Down by a man portable Anti Aircraft Missile. The weapon fired from a fast small boat, struck the left wing root and detonated in the #2 main fuel tank. TWA flt.800 was the 27th loss world wide. After a two year cooperative investigation accomplished with proven aircrash professionals Cdr William Donaldson USN/Ret. will present to the audience:

- ◆ How the Administration recieved prior warning in 1994 and 1995
- ◆ How the aircraft was destroyed.
- ◆ Why and how a cover-up was ordered.
- ◆ Why the President made panic phone calls, proving prior knowledge.
- ◆ Why the Administration deliberately delayed the recovery of victims bodies.
- ◆ Why the NTSB (National Transportation Board) and FBI lied about recovery of the black boxes.
- ◆ Why and how the FBI mounted a covert 5 million dollar missile recovery effort.
- ◆ Why the Justice Department holds witness testimony, photo evidence, laboratory evidence and explosive tests secret from the aircrash experts.
- ◆ How the NTSB, under the leadership of Mr. Gore's attorney, squandered 40 million in less than three years without criticism or Congressional Oversight.
- ◆ Why the Justice Department prosecuted the head TWA crash investigator, Capt. Terrel Stacey and writer of three books, James Sanders and his wife Liz.
- ◆ Why Congressman Traficant betrayed the investigation.
- ◆ Why hundreds of eyewitness can't speak out
- ◆ Why TWA and Boeing can't speak out.
- ◆ And much, much more.

After this special briefing you will demand to know why all six California members of the House Aviation Sub Committee Congressmen: Millender-McDonald, Tanscher, Filner, Doolittle, Miller and Kuyhendall failed to attend Cdr. Donaldson's testimony before the Committee when physical evidence of Mr. Clinton's re-election cover up was introduced May 6, 1999. This is a must attend for aviation professionals. Cdr. Donaldson will ask you to demand to be heard!
